SHIELD FOR PAINTING

Reference 3568

DESCRIPTION

The Shield is an essential accessory for professionals who use airless painting equipment and seek greater precision, speed, and protection during application. Developed from lightweight and durable material, the Shield acts as a physical barrier that prevents overspray (paint mist), protecting baseboards, door frames, ceilings, window and door frames, corners, and areas that should not be painted. Its ergonomic shape and direct attachment to the airless spray gun allow for cleaner painting, with an excellent finish and time savings on touch-ups and manual protection. Includes 3 cardboard sheets, 1 wooden extension handle, and 1 mounting bracket.

CHARACTERISTICS

Blade Material: 2mm thick cardboard.

Blade dimensions: 60cm x 20cm.

Mounting Structure: Metal bracket with black electrostatic paint finish. Double support arch secured with hexagonal screws.

Cable: Made of wood, with universal thread. Length: 61cm.

ADVANTAGES

- Reducing rework through cleaning and corrections;
- Saving money on tape, tarps, and protective plastics;
- More professional and uniform finish on the cutouts;
- Easy to fit and use, no need tools;
- Ideal for quick jobs, renovations and commercial paintings.

	HEIGHT	LENGTH	WIDTH
MEASUREMENTS OF THE SHIELD	2mm	60cm	20cm
PACKAGING MEASUREMENTS	4,7cm	61cm	22cm

INDICATIONS FOR USE

Painting walls near baseboards and door frames, protecting window and door frames, electrical outlets and switches, applying paint to ceilings and recesses, painting in rooms with partitions or fixed furniture, work in areas that require a high level of finish.
