6" BUCKET SPATULA

Reference 3261

DESCRIPTION

Curved blade spatula designed to efficiently remove material from containers (buckets), in order to speed up work and eliminate material waste.

CHARACTERISTICS

Handle made of rubberized PVC, with an ergonomic grip design.
High-quality stainless steel blades.

Features and Benefits:

Intelligent Design: Our spatula features an ingenious design, with a curved blade that fits perfectly into the bottom of the bucket.

Quality Materials: Constructed with durable materials, the spatula is built to last, saving you time and money in the long run.

Material Economy: By eliminating material waste, our spatula helps you save valuable resources, making your projects more economical.

Easy to Clean: After use, simply rinse the spatula to remove any material residue, making it ready for the next use.

Example demonstrating the function of the bucket spatula.

INSTRUCTIONS FOR USE

General use in civil construction.
