FIBER EXTENDERS WITH THREAD

Reference see below

DESCRIPTION

A versatile device designed to enhance and facilitate the painting process. They are made of high-quality materials, providing durability and resistance.

Available in 3 sizes:

1,40m (ref. 3262) / 2,00m (ref. 3263) / 3,20m (ref. 3264).

CHARACTERISTICS

Universal thread.

Fiber gripper, providing greater lightness and more safety during application.

Featuring a PUSH system (quick adjustment button).

Universal thread

Benefits and Advantages:

Extended Reach: Fiber extenders allow painters to reach hard-to-reach areas, such as high ceilings and distant walls, without the need for ladders or scaffolding. This improves workplace safety and saves time.

Saving Time and Effort: work can be done faster and more efficiently. This reduces worker effort and increases productivity, allowing more work to be accomplished in less time.

Durability: Constructed with durable materials, fiberglass extensions have a long lifespan, making them a valuable investment for any painter or painting company.
