# AUTO-START AUTOMATION MODULE

Reference 3741

## DESCRIPTION

The Auto-Start automation module is the ideal solution for optimizing efficiency and practicality in work environments. Designed to operate with 220V voltage, this device offers two independent outputs, allowing the user to connect a vacuum cleaner and a sander simultaneously.

With its integrated technology, the Auto-Start system features a smart board that coordinates the operation of connected devices. When the sander is activated, the system automatically activates the vacuum cleaner, ensuring more efficient suction during use.

This product is the ideal choice for professionals seeking greater efficiency and convenience in their work, ensuring a clean and organized work environment.

## CHARACTERISTICS

It has two standard 3-pin sockets (10A female plug), with a red input for connecting a sander and a black input for a vacuum cleaner.

Equipment operates on 220 volts/50-60Hz.

SANDER

SUCTION UNIT

**=2.200W**

## INDICATIONS FOR USE

For electric sanders and vacuum cleaners only.

	HEIGHT	LENGTH	WIDTH
PACKAGING MEASUREMENTS	10,5cm	25cm	16,5cm

## ADDITIONAL DATA

MAX. CURRENT SUP.	10A
MAX. COMBINED POWER	2.200W
NET WEIGHT	0,5kg
GROSS WEIGHT	0,605kg
VOLTAGE	220V / 50-60Hz

Made in Brazil
