# PRO-X AIRLESS SPRAY GUN

Reference 801

## DESCRIPTION

The Pro-X airless paint gun is a high-quality, lightweight piece of equipment with an extremely smooth trigger.

The pistol body is manufactured from a fine aluminum alloy fused with other elements, achieving a high level of pressure resistance. Equipped with a ceramic needle and tungsten seat. With a relatively smaller size than most spray guns on the market, it is easy to handle with or without gloves. It has a safety lock, preventing accidental trigger pressing.

The lock can also be used to maintain spraying for a long time without needing to press the trigger.

Flexible hose support for easier rotation in any direction.

**NEVER AIM THE SPRAY GUN  
FOR ANY PART OF YOUR BODY**

EVEN WITH THE AIRLESS TIP IN FAN,  
BEING WATER OR PAINT, THE  
HIGH PRESSURE EXERCISED MAY CAUSE  
SERIOUS DAMAGE WHEN CONTACTING THE SKIN.

	HEIGHT	LENGTH	WIDTH
PACKAGING MEASUREMENTS	6cm	25cm	15,7cm

## CHARACTERISTICS

Includes Nauber Light Green tip guard and Nauber Light Green 517 airless tip.  
Four-finger trigger.

## INDICATIONS FOR USE

Recommended for use in airless painting systems.

## ADDITIONAL DATA
